***** Notes of Significance *****
 Fires highlighted in yellow have submitted a final ICS-209

Date: 8/1/2018

[illegible]

Evening Brief

Date: Wednesday August 1, 2018

Weather Summary

***** High Risk for Gusty Winds/Low RH Thu-Sat Wrn/Nrn NV into Idaho *****

Thunderstorms will continue Thursday over Southeast ID/WY/Nrn UT/Ern NV and areas further south, however will transition to wetter storms with wetting rains even likely over parts of Nrn UT.

Mixed wet/dry or wetter lightning will continue over the southern half of NV/UT and the AZ Strip through Thu/Fri with drier weather pushing across much of the Great Basin briefly this weekend, before thunderstorms start returning to southern areas early next week.

Stronger winds and drier conditions will move into Wrn/Nrn NV into Srn ID Thu-Sat. RH will drop into the single digits to low teens during the afternoon/evening through Sat in these areas with gusts 30-40 mph. The strongest winds look to occur on Fri/Sat. These conditions will continue to affect ongoing and new incidents and also increase the likelihood of lightning holdovers over Nrn NV/Srn ID and Nrn UT.

Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	5	Light Initial Attack Activity
National	5	New Fires and Acres: 28 fires 228.7 acres; 21,953 acres large fire growth

Great Basin Fuel Status [interactive link](#) (Use Edge, Chrome or Firefox browsers)

Fuels and Fire Behavior advisory has been issued for [Northern Great Basin](#)

Fuels/Fire Potential

ERC's are mainly in the 80th - 97th percentile across Northern parts of NV, UT and ID, where many areas are approaching record highs for the time of year. Wyoming ERC's are also steadily rising into the 60th-70th percentiles. Sagebrush Live Fuel Moisture levels across most areas are near early August normals, and grasses are cured in just about all areas, except the highest elevations above 6500 ft. in Idaho and Western Wyoming.

ERC's are still near or below the 50th percentile across the southern third of Nevada, Utah, into the AZ Strip, but even there, drier pockets are beginning to emerge, along with an occasional lightning holdover.

Resources:

Aviation within the Great Basin

- 0 VLAT's, 3 LATs, 1 CL-415
- 21 SEATs, 2 Fire Bosses
- 9 Type 1 Helicopters / 9 Committed
- 8 Type 2 Helicopters / 8 Committed
- 22 Type 3 Helicopters

Crews Committed within the Great Basin

- 8 IHCs Committed / 0 Available
- 28 T-2 IAs Committed / 0 Available
